

LOCAL.  
BIO.  
FAIR.

Healthy eating is becoming increasingly important in consumers minds. As people realize that health problems are associated with modern lifestyles, interests in eating in an environmentally-friendly manner are escalating.

The Indie's menu is diverse, comprised largely of bio/organic and/or fairtrade goods, local in-season treats, and healthy pesticide-free dishes:

Our animal products like meat, eggs or milk are all bio/organic and local.

All our fish dishes are with fish from a natural environment, wild, and caught by respectful means following the sustainable fishing rules.

Vegetables and fruits are bio/organic and local. Products from the developing world (like bananas, chocolate, coffee, tea, sugar, ...) are fairtrade.

Our items range from freshly made juices to salads, sandwiches & burgers, tapas and omelettes.

Come hungry. Leave happy!
